INTRODUCTION

COMPANIES | KRISHNA INDUSTRIES

BRIEF

KRISHNA INDUSTRIES

We introduce ourselves as one of the leading manufacturers of "STORAGE SYSTEMS, PALLETS & COMPACTORS (mobile shelving systems) and RACKS SUPPORTED WAREHOUSE". We have Heavy & Light Duty Racking System made out of our cold roll formed section, which can take a uniformly distributed maximum load up to 5750 Kgs per shelf by use of modern material handling equipments like fork lifts etc. This system does not call for any welding at site. even then one is free to change the loading levels upwards or downwards in multiple of 50mm. we plan the system as per the customer need and space available. Our racks and compactor system are widely used for different material handling application generated at all levels in different industries and sectors be it Automobile, Pharmaceutical, Engineering, Hospitality & Catering, Logistics, Super markets, Electronics, Retails, Food and Beverages, Agriculture & Seafood etc.

OBJECTIVE

"To Become A Leader In Storage Solution"

PRODUCT & SERVICES

PRODUCTS

- Slotted Angle Rack
- Heavy Duty Rack
- Pallet Rack
- Double Deep Racking System
- Mobile Compactors
- Mould Rack
- Two Tier Racking
- Hydraulic Good Lift
- Mezzanine Floors
- Cantilever Racks
- Drive-in-Racks
- Lockers
- M.S. Pallet
- Wire Mesh Pallet
- Trolleys
- Material Handling Equipments

SERVICES

Consultancy
Designing
Installation
After Sales Service

Heavy Duty Rack

The roll forming technology enabled various profile help us to offer any length and height as well cost effective solutions. All our products are available in powder coated finish. Which is baked by superb Pretreatment process to ensure the long lasting surface. our system have been found useful to almost any kind of industries, To name a few sectors such as Pharmaceuticals, Chemicals, Engineering, Textile, Food Processing, and Electronic industries. in all departments such as Raw material store, finished goods store, packing material store, Engineering store.

Users

- Industries • Educational Institute
- Automotive Components • Pharma Industries
- Warehousing • Supermarkets
- Logistic Companies • Others

Slotted Angle Rack

| Height(mm) | Width(mm) | Depth(mm) | Load(Kgs.) |
|------------|-----------|-----------|------------|
| 2000 | 900 | 300 | 100 |
| 2000 | 900 | 450 | 100 |
| 2000 | 1200 | 450 | 150 |
| 2000 | 1200 | 450 | 250 |

- Krishna Storage Solution Two tier/Three tier Storage system is a unique way to create space within space produce by using section of angle, panel and combination.
- Prime quality CR/HR sheets.
- 7 tank pretreatment process.
- Liquid paint/powder coating.
- Oven baked.
- Scratch resistant smooth finish.
- Easy to expand
- Ideal for Engineering store, Finish goods store, Raw material store, document store etc.

Users

- Educational Institute
- Industries
- Logistic Companies
- Warehousing
- Hospitals
- Library
- Others

Components :

1. Upright
2. Foot Plate
3. Riveted Beam
4. MDF Panel/Steel Shelves

Hydraulic Good Lift

Single Mast Type

Duble Mast Type

DOUBLE GIRDER OVERHEAD CRANE

Capacity : 1 Ton to 150 Tons
Lifting Hight : As per Customer Application
Span : 6m to 30m
Class of Duty : M5,M7,M8 as per IS:3177/807, Also available as per any other applicable international standards

SINGLE GIRDER OVERHEAD CRANE

Capacity : 0.5 Ton to 20 Tons
Span : 3 m to 30 m

Single girder dual motor cranes provide greater floor coverage than other type cranes. The close crane end approaches coupled with a close trolley approach hoist give you more working floor coverage. This can reduce your space requirements in new buildings, or expand your usable space in existing buildings.

Pallet Rack

Features

- Can be tailor-made according to customized requirements.
- Build for safe and sturdy supports of pelletized loads.
- Easy placing and removing items using industrial trucks.
- Configuration of main and add-on modules as per space availability.
- Long term planning security thanks to standard frames.
- High strengthened colsed steel panel with welded support bars.
- Can be supplied with various decking panels.
- Hi-gloss powder coat finish for excellent visibillity.
- Heavy Duty steel in all uprights and beams supplied.
- More storage capacity on less floor space.
- Height of beam can be adjusted in increments of 50 mm
- Wide array of beam and upright selections enable to choose the most effective solution for any load size.

Users

- Industries
- Warehousing
- Pharma Industries
- Logistic Copanies
- Others

Mobile Compactors

Components

- Selves • Manual Crank wheel
- Base wheels • Guide Rail
- Side Cladding • Top Cladding

Users

- Hospitals • Industries • Warehousing
- Pharma Industries • Logistic Companies
- Educational Institute • Offices • Library
- Others

Wire Mesh Pallet

Users

- Hospitals • Industries
- Warehousing
- Pharma Industries
- Logistic Companies
- Automobile Industries
- Others

Used for

- Storage of material at a fixed place
- In house movements of material
- Transportation of material
- Efficient storage capacity

Features

- Stackable
- Customised Dimensions
- Customised Load Capacity
- Minimum Fabrication
- Smooth Edges
- Vast Range

Mould Rack

Features

- Economical
- Interchangeability of parts.
- Easy and do-it-Assembly
- Provides clear access from all sides
- Varieties of decking shelves

- Finished in attractive colours
- Powder Coated
- Uprights with adjustable steel shelves
- No welding or drilling required
- Multi tier storage

Mezzanine Floors (Multi Tier)

Features

- A Stable new floor to hold additional storage
- Can be designed to offer the greatest clear space on the ground for additional activities / storage
- Enables you to maximise the usable height within your warehouse
- Reduces cost of construction by allowing efficient use of space
- No extra costs for heat, lights, or air conditioning
- Can be easily enlarged, modified or moved
- Two tier wide space racks
- Gives additional space without adding ratable value to your property.

Components

1. Column
2. Primary Beams
3. Secondary Beams
4. Flooring Panels
5. Railing
6. Staircase

Users

- Industries
- Warehousing
- Pharma Industries
- Logistic Companies
- Others

Cantilever Racks

Cantilever Racking is Specially designed to store long or varying length items. such as metal beams, pipes, moulding, wooden boards, metal and plastic sheets among other materials. The system basically consists of columns with a vertical beam and one or two horizontal beams at the base to provide stability. A series of arms is attached on which the load is placed. load may be handled manually when they are lightweight or by using lift-trucks or other appropriate lifting systems when heavy items are involved.

Drive-in -Racks

Features

- A High density space efficient bulk storage system.
- Can increase storage capacity by up to 60% over wide aisle racking.
- Works on a first pallet in, last pallet out system.
- Pallets stored on cantilevered rails.
- No specialist handling equipment required.
- Good for storing seasonal ranges.

Components

1. Upright
2. Top Bracings
3. Bracket
4. Drive-in-fall
5. Pallet

M.S. Pallets

Features

- Customised Dimensions
- Customised Load Capacity
- Minimum Fabrication
- Smooth edges
- Vast Range

Used for

- Storage of material at fixed place
- In house movements of material
- Efficient storage capacity

Users

- Industries
- Warehousing
- Pharma Industries
- Logistic Companies
- Automobile Industries
- Others
